DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 1-9 and 11-22 rejected under 35 U.S.C. 103(a) as being unpatentable over Imuta et al. US 2002/0156207 in view of Qian et al US 6,407,155.
3. The patent to Imuta et al. is established as showing the claimed polymeric composition but for the claimed nonfiller having the claimed particle size and being intercalated with the quaternary ammonium compound. The claimed clay being intercalated with quaternary ammonium compounds is a known reinforcing filler. The Qian patent is cited as showing this, see column 3 lines 8+. It would be prima facie obvious to use the clay of Qian in the compositions of Imuta given the art recognized advantages associated with the intercalated clay nanofillers.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
